Make an
awesome
July 4th

burger!

"We believe you have a right to enjoy the highest quality, best-tasting burger! That's why all three Pacific Markets grind USDA choice beef, pork, chicken and turkey for burgers and sausages everyday. We are one of only a handful of markets left in the USA that still grinds fresh meat! The big chains claim to grind their own. BUT almost all buy "tubes" of pre-ground meat, then regrind it in order to make that claim. Not Pacific Market! Honesty, quality and food safety is very important to us and to our customers! So go get your burger on!"

Customer Corner!

My boys love cheeseburgers, but we really avoid fast food. Pacific Market sells organic grass fed beef and they also grind all their meat in the store. So even though we don't eat lots of beef, it's nice to know that when we barbeque up some burgers, we're eating the best and safest beef available.

Kelly Johnson, Mother, Spin Teacher, Marathon Runner & Pacific Market shopper!
